

## UNDISGUISED LETTER FOR GOVERNMENTS OF THE UNITED EUROPE'S COUNTRIES AND FOR THE CHRISTIANS OF THE WORLD

We ask for all of our Christian brothers to prevent the United Europe from doing the newly developing political Christian genocidium.

*„There was also mistake: Most of the leading Hungarian politics knew the most important works written by Lenin and Stalin and the face of Russian Bolshevism - it's actions, programmes, practices - only superficially or they didn't know them.” (Mindszenty József)*

*„The Christian faith-world, reality of God, Christ risen of Bible are inside keeping power of world, power forming the world.”*

In member-states of the United Europe of XXI. century the European nobility and aristocrats do deciding steps for the unit. In the interest of European society - being in total transformation - governments of the European countries have newly to compose those values, which are in the past and present of nations: this is the Christianity. The christian and human values were developing for two thousand years. These christian values have intellectual inheritance and give them also the people of present period, moreover the human dignity of person is appreciated by this values. Remaining these Catholic, Protestant, Orthodox or other religious or philosophical values we have to struggle against all of the political tendencies willing overthrow all and destroy Christian values of past. These tendencies are spread in the European Committee. Undervaluing of the Christianity and attacking are made by them as political programme. The Western (black) and Eastern (red) variants of this fascism were made by the second war of the world. In the West the people of Old Testament and in the East the people of New Testament were destroyed by these dictatorships. We have never forget the Red fascism destroyed people of New Testament! We have to see danger of it today too. These are presented by the following events: 1953 (Berlin), 1956 (Poznan and Budapest), 1968 (Prague), 1981 (Solidarnost-Gdansk) and 1989 (Temesvar / Timișoara), moreover the Christianity had a few of air Europe by destroying of the wall in Berlin.

Nowdays in 2022 year the sanctioning is begun: By the European Committee Patriarch Kirill is put into the list of sixth packet of sanctions of Union for proposal made by Ursula von der Leyen - president of European Committee -. Outside of Europe Kirill Patriarch - head of Orthodox Church - was chosen by European Committee to go against the Christians having the Western and the Eastern rites, it means: to become disorganised the ecumenical system. There were protested to the sanction by followings: Syrian Orthodox Patriarch, Armenian Apostolic Church, Hungarian county of Church of Russian Orthodox Church and Serbian Orthodox Church too. Bakk Istvan - president of Foundation called Canon Bakk Endre, founder by ethical codex of the Union of European Passion written in congress of Porto on the 1-2. of September in 1989: CILANE (COMMISSION D'INFORMATION ET DE LIAISON DES ASSOCIATION NOBLES D'EUROPE) - joined to them.

We aren't tolerant against all of pursuits the Christians as there are disoblged 2.6 milliard Christian people by them. *“The Christian world is the reality of God, Christ resurrected of Bible, they are keeping inside power of worlds, they are power forming the world.”*

**That's why we protest and we call upon the president of European Committee Ursula von der Leyen to resign.**

Hungary, 19. of May in 2022.
